PRATIK SONKUSALE

Mumbai, India | +91 7738507884 | pratiksonkusale55@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Senior Backend Engineer with 5 years building scalable, client-facing distributed systems using Java, Spring Boot, and Microservices; part of the Forward Deployed Engineering (FDE) team, leading client requirements and use-case delivery. Skilled in RESTful APIs, Kafka event-driven architecture, Redis, Spring Security (JWT/RBAC/ACL), AI coding tools, and cross-functional collaboration with AI/ML, Infra, and platform teams on AWS/Kubernetes. Proven impact: reduced API latency by 30%, cut manual processes by 40%, improved DB execution time by 25%.

TECHNICAL SKILLS

Languages: Java
Backend & Frameworks: Spring Boot, Spring Cloud, Spring Batch, Spring Security (JWT, RBAC, ACL), Microservices, RESTful APIs, Hibernate, JPA, Apache Kafka, Redis, API Gateway, Temporal, Resilience4j, Flyway, SSE, Multithreading, Concurrency
Databases: MySQL, PostgreSQL, MongoDB, MSSQL, Oracle, DB2, Snowflake
DevOps & Cloud: AWS, Docker, Kubernetes, Jenkins, GitHub Actions, Azure DevOps, CI/CD, Nginx, Grafana, Blue-Green Deployments
Architecture: Distributed Systems, Event-Driven Architecture, Microservices, System Design, Cloud-Native, Circuit Breaker Pattern, LLM/AI Integration, High-Throughput Systems
Tools: Git, GitHub, Postman, Swagger, STS, VS Code, WinSCP, PuTTY, AI Coding Tools (Claude Code, Copilot, Codex), AI Agents
Soft Skills: Technical Leadership, Code Review, Mentoring, Cross-Functional Collaboration, Ownership, Stakeholder Communication

WORK EXPERIENCE

QyrusAI (spun off from Quinnox) | Mumbai, India **Mar 2026 – Present**
Senior Platform Engineer

- Embedded with enterprise clients as part of the FDE Operations team, gathering automation requirements and delivering scalable Java/Spring Boot backend solutions and integration connectors on Qinfinite.
- Extend ownership across the stack using AI-assisted development to ship Java backend features alongside Angular micro frontend UI fixes, speeding up client issue turnaround.
- Collaborate cross-functionally with AI/ML and Infra teams to deploy AI agent automation for client use cases into production; define architecture and code-quality standards.

Quinnox Consultancy Services | Mumbai, India **Sept 2021 – Feb 2026**
Senior Platform Engineer

- Architected and deployed 12+ microservices (Java, Spring Boot, MySQL, Kubernetes), reducing API latency by 30% and improving throughput for enterprise workloads.
- Sole technical point of contact for enterprise clients on the automation module; led backend architecture for Automation Hub, built Spring Boot integration connectors and Global Configurator.
- Integrated 50+ REST APIs to automate workflows, cutting manual processes by 40%; implemented Spring Security, JWT, RBAC, ACL, and audit logging for access control.
- Optimized SQL queries via indexing, reducing DB execution time by 25%; designed Kafka-based event-driven workflows for real-time async processing.
- Built CI/CD pipelines (Jenkins, Azure DevOps) with automated tests and blue-green deployments; mentored juniors via code reviews and RCA sessions.

PROJECTS

ZipRun – AI-Powered Order Reassignment Engine | Java 17, Spring Boot 3.3, PostgreSQL, Kafka, Redis, Resilience4j, Angular, LLM Integration

- Built an AI-driven order reassignment engine with LLM-based routing (Gemini/Groq with automatic fallback), circuit breaker pattern for provider failover, optimistic locking, SSE real-time streaming, heartbeat-based offline detection, SLA deadline monitoring, zone-aware capacity routing, and human-in-the-loop approval; deployed via Docker, Nginx, GitHub Actions CI/CD with Flyway migrations.

Secure Finance & User Management System | Java, Spring Boot, Hibernate, MySQL, REST APIs, JWT, Vault

- Built a secure finance system with RBAC, JWT authentication, and HashiCorp Vault secret management for enterprise-grade access control.

ConnectSphere – Social Networking Platform | Java, Spring Boot, REST APIs, MongoDB, Kafka, Redis, JWT

- Designed scalable microservices with API Gateway, service discovery, Kafka async notifications, and Redis caching for personalized feeds.

EDUCATION

Mumbai University - B.E. in Information Technology (CGPA: 8.33/10) **Aug 2017 – Jun 2021**

CERTIFICATIONS & COURSES

- **AWS Certified Cloud Practitioner** – In Progress (Expected 2026).
- **Spring Boot Microservices** and **Apache Kafka – Event-Driven Architecture** – Udemy.

ACHIEVEMENTS & RECOGNITION

- **Star Performer Award (2023)** & **Spot Award (2022)** at Quinnox | First Runner-Up, Quinnox Hackathon 2022 | 5-Star Gold Badge, HackerRank (Java).
